

Make Me More Ugly

Destroy the Street

*Sterilize street-level retail,
ignore context*

Sheds

*Build cheap derivative buildings,
use ugly bland color schemes
inspired by institutional interior decoration*

Stubby

*Keep building short stubby buildings
by enforcing archaic height restrictions
and inane air rights*

Brutalism

Use ugly concrete everywhere

No Maintenance

*Speed conversion of public infrastructure
into the private realm by a program of
deficient maintenance*

Casinos !!!

Lucre, bling, alcohol, gambling, whoring

Memorials

*Put up more arrogant memorials for the
glory of public institutions, lame obvious stuff*

Supermarkets

*Close local stores, make people drive
longer distances for the basics; combine
football field sized stores with lack of choice*

City Blocks

*Build out entire city blocks with no public
plazas, albeit for little parks for smokers*

Public Art

*More ugly art everywhere! The only real art
is private, but please, keep on littering the
scenery with the worst possible junk*

Drugstores

Pills everywhere! Cosmetics for ugly citizens!

Politics

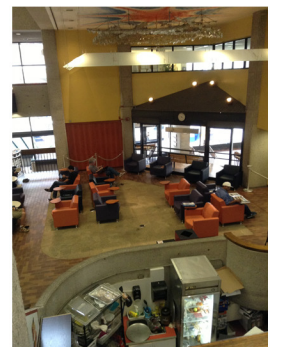

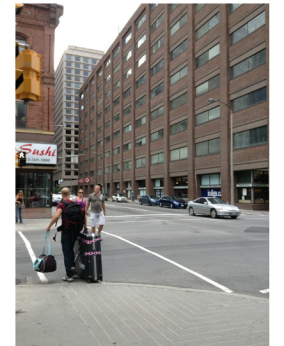

*Continue the tradition of non-representative
politics at the city level; turn the city into a
confederation of nuked satellite suburbs to
increase the tax base and feed the sprawl monster*

Small Minds

*Elect mediocre mayors, allow appointment
of unqualified people to run public transport
systems, public libraries*

Bylaws

*You can never have too many bylaws,
regulate everything in sight, enforce
arbitrary zoning, support pay-your-way zoning*
